

ByTrain

Pakistan Railways Timetable & Station Guide

Offline First

No Account Required

142 Stations

Clean & Fast

ByTrain is a clean, easy-to-use train timetable and station guide for Pakistan Railways. It shows you which trains run between stations, when they leave and arrive, which stations they stop at, and what's available at each station.

Core Features & Navigation

Home — Your Journey Board

- Shows all your saved upcoming journeys, automatically sorted with the soonest trip first.
- Displays a helpful *"Plan a Journey"* button when no saved trips are present.
- Provides direct, quick shortcuts to the **Route Planner** and **Search** screens.

Search — One Box for Everything

- **Universal Search:** Type a train (e.g., *"Karakoram"*), station (e.g., *"Multan"* or *"LHR"*), or route (e.g., *"Lahore to Karachi"*) into a single unified search bar.
- **Full Catalog:** View complete lists of stations, routes, and trains immediately without typing.
- **Smart Filters:** Narrow down results by entity type (Trains / Stations / Routes) or train class (Express / Regional / Local).
- **Voice Input:** Tap the microphone icon and speak your query for hands-free search.

Plan — Find a Train Between Two Places

- **Station Selection:** Pick starting and destination stations from a verified list of 142 stations, with a one-tap swap option.
- **Schedule Options:** Select custom dates and times using quick *"Today / Tomorrow"* and *"Now"* shortcuts.
- **Intelligent Sorting:** Sort results by *Fastest Route* (default) or *Direct Only* to prioritize optimal connections.
- **Real Schedules:** View authentic schedules with accurate departure and arrival times.
- **Bookmarks:** Save any journey locally to your device; saved trips appear on your Home screen and remain highlighted in search results.

Detailed Views

Train Page

Includes train name, number, full departure and arrival schedules, total travel duration, and total number of stops. Tap **"View Full Route"** to inspect every stop along the line.

Route Page

Displays the complete stop-by-stop timetable for any selected train. Tapping any station name opens a quick info card with key station details.

Station Page

Provides official station name, code, city, and province. Lists every train that calls at the station along with its scheduled arrival and departure times.

Settings

Access app version, team details, built-in Help guides, Privacy Policy, and Terms of Service.

Good to Know

- **100% Offline Functionality:** All schedules and station data are built directly into the app. You never need an active internet connection to search schedules or view saved trips.
- **Seamless Background Updates:** When connected to the internet, ByTrain quietly checks for updated timetable information (at most once a day). Updates apply automatically on your next launch without interrupting your use. If an update fails, your offline data remains fully intact.
